Experienced Estonian manufacturer of outdoor saunas and log houses

Company

Our production complex is located in a small village called Võnnu in the middle of fields and forests in South Estonia.

Saunasell is one of the first and biggest manufacturers of outdoor saunas in Estonia producing oval, barrel, log and terrace saunas, sauna pods and hot tubs. Next to Saunasell, COHO was born to offer and create more complex and bigger log projects. We have more than 15 years of experience in manufacturing of different sizes of saunas, holiday and summer houses, garages and living houses.

In addition to Estonian market, our products can be seen all around the world. We have sold our products to more than 20 countries.

15 years of manufacturing experience

50+ distributors around the world

75+ different products in assortment

200+ production capacity per month

Production

The entire production process takes place in our factory – it starts with the preparation and finishing of the material up to turnkey projects.

Our production complex is located on an area of 6 hectares, where 8 production buildings with a total volume of 7,540 m² are in everyday use.

In 2021 we expanded our production area and capacity significantly. Our high-quality log houses are produced by fully automatic Hundegger K2i production line. We offer massive log profiles (40-152mm) and laminated log profiles (88-204mm). There are other machines in our fleet in everyday use as well – AUER-BL100A, Salvador SUPERPUSH 250 and CNC SCM.

Our main bonus is our production flexibility and creativeness – we always meet the needs of our customers and besides the standard models we create custom solutions and projects for best customer experience.
