	Screw 5x90		for base frame		50
	Screw 4.2x55		for decking boards		300
	Screw 5x40		for metal angle brackets		40

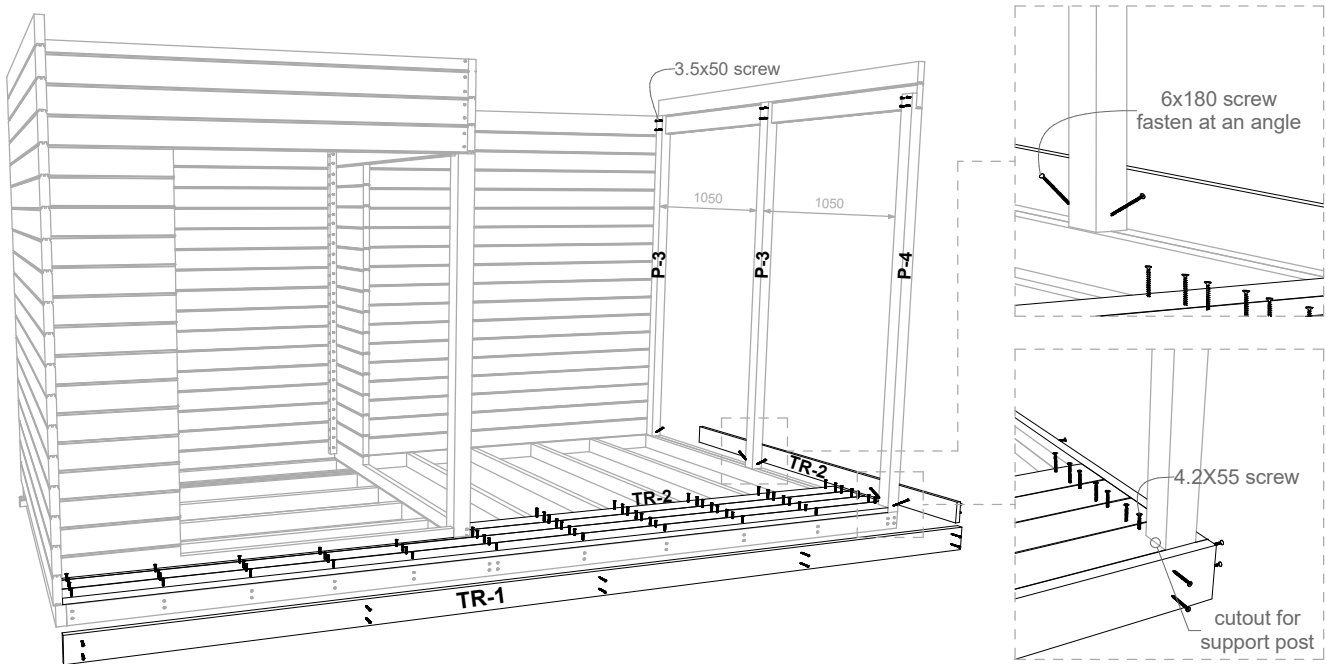

1. Connect the terrace base frame details according to the scheme.
Make sure that the frame is level and that the diagonals are equal ($X = Y$).

X= 5141 mm; Y= 5141 mm

2. Install the P-3 and P-4 posts and fasten them to the base frame using 6x180 screws at an angle.
Do not attach the adjustable post supports to the bottom of the posts.

3. Make cutouts for the support posts and fasten the decking boards to the base frame using 4.2x55 screws.
Cut the last decking board to width using a circular saw.
